

Remarks

By the above amendment, sequence identifiers have been added and other clarifications have been made to the specification.

A substitute Sequence Listing is enclosed in paper form. The sequences described in the specification for which identifiers have been added are now included in the substitute Sequence Listing. In particular, SEQ ID Nos.: 25, 26, 27, 28, and 29 have been added to the specification and accordingly these sequences have been added to the Sequence Listing (support for SEQ ID NOs.: 25 and 26 is found in the paragraph spanning pages 16-17 of the specification, and support for SEQ ID NOs.: 27, 28, and 29 is found in Figure 1A). Additionally, the organism identified for SEQ ID NO.: 2 has been corrected in the substitute Sequence Listing, as supported in the paragraph spanning pages 2-3 of the specification and in Figure 1A.

In accordance with 37 C.F.R. § 1.821 through 1.825, enclosed is a replacement diskette containing a computer readable form (CRF) of the substitute Sequence Listing. The content of the CRF form of the Sequence Listing on the replacement diskette is identical to the substitute Sequence Listing written in paper form. The substitute Sequence Listing introduces no new matter, as discussed above.

If any fees are necessary for the filing of this submission, please charge such required fees to Deposit Account No. 10-0750.

In view of the foregoing, Applicant requests prompt examination on the merits.

Respectfully submitted,
